WRAP UP IN A DAY AND START SAVING WITH WESTERN INSULATION

NOW AT BRACKERNAGH IN BALLINASLOE

TEL 090 96 46756

It's 6.45p.m., outside the kitchen window the odd leaf floats to the ground, "Darling, can you turn on the light please, I want to read the newspaper". This heralds the end of Summer and the start of Autumn for many of us.

The Autumn and Winter don't feel as cold and miserable as they did last winter with the help of Western Insulation and our 10 years of experience we can help you feel more cosy this Winter than any other Winter and you will also save money.

At Western Insulation, we offer total insulation cover for your home, from floor insulation both thermal and acoustic, to wall cavity insulation (bonded bead) in block build homes and also roof and attic insulation. We specialise in the thermal and acoustic insulation of timber frame houses and our fully trained staff take on each job with our company motto in mind "Treat each home as if it were your own".

Over the past few years there have been major changes in the insulating of new homes where now our new home must meet a minimum standard of insulation.

...and from 2006 your home will have to have an energy efficiency rating certificate A, B, C etc. similar to that which is found on the outside of new dishwashers, washing machines etc.

At Western Insulation, we can help advise you on the best way to achieve the new standard of insulation for your home in the most cost effective way.

'Oil' the latest dirty word not to be said out loud would appear to be on a price rocket to Mars, so insulating your home to the highest standard is going to save you money in the short term and also in the long term. This is especially true of houses constructed before 1990 where standards of insulation in both cavity walls and attics were very sub-standard.

At Western Insulation, our new premises at Brackernagh in Ballinasloe is open Monday to Saturday from 8a.m. to 6p.m. So telephone or call in to talk to Pat, Colm or Alan and see how we can help you stay cosier and save money this Winter.
